INTRODUCTORY

The aim of this work is to give a complete and accurate index to the public and private educational system of the United States. The information has been thoroughly revised and brought down to date, and before final printing of the book proofs submitted to the various school officials for final revision and correction.

In the main geographical classification, in addition to the public school officials, will be found a complete list of all schools and colleges, together with information as to the kind of school, class of students admitted, religious denomination, year established, and the name of the head of the institution. A second complete list of all schools is given in which they are classified and arranged according to the kind of school, giving a ready reference or complete list of any particular class of school. A complete Alphabetical Index of schools will be found at the back of the book from which any institution may be instantly located. The Public School system is fully covered by lists of the State Educational Officials and County Superintendents of schools, the Boards of Education, City Superintendents, Special Supervisors and Principals. A list of the more prominent libraries, with the name of the librarian and number of bound volumes, is also given. It is believed the work will be found of value to every one in any way associated with educational institutions, or engaged in educational work.

Acknowledgment is made to the various State and City Superintendents of Public Instruction, private school officials, librarians and others for their kind co-operation and assistance in furnishing data and information necessary for the completion of the work.

CONNECTICUT

Population, 1,114,756 School census, 242,662. School age, 4-16.

Connecticut is the thirty-first state of the Union in point of population, having a total of 1,114,756 inhabitants, of whom 98 6 per cent. are white. Of this number, 29 5 per cent. are foreign born. The percentage of illiteracy of the entire population, ten years of age and over, is 6 per cent, the state ranking thirtieth in this respect. The educational system of the state is as follows, the chief executive power resting not in a State Superintendent, as in most states, but in the State Board of Education, of which the Governor of the state is chairman and the Secretary executive officer:

CHARLES D HINE, Secretary State Board of Education	Hartford
MRS BELLE H JOHNSON, Library Visitor	Hartford

STATE BOARD OF EDUCATION

The state has an optional text-book law, authority being vested in local boards or the voters to determine whether text-books shall be furnished free.

COUNTY SUPERINTENDENTS OF SCHOOLS

Connecticut has no county superintendents of schools, but has instead what is called the "town system" of school supervision, each city, or in some cases, where the towns are small, a group of cities, having its individual superintendent of schools.

The Tome School for Boys

With its endowment of over two and a half million dollars, it can limit its enrollment to boys of high character. It has a faculty of unusual strength and size. It has created an unique type of school life. It can give much individual attention through its special tutors. Its graduates take high honors in the leading colleges and technical schools. Each boy has his own room. It has the most beautiful school buildings and grounds in America. It has one hundred and seventy-five acres, on which are a nine-hole golf course, five athletic fields, swimming pool, quarter-mile cinder track, tennis courts and batting cage. Its tuition of \$700 would have to be fifty per cent greater were it not for its endowment.

The Lower School for Little Boys offers all the advantages of the Upper Forms with the special benefit of a separate dormitory and a separate organization.
